ABOUT US

About Globiq International

At Globiq International, we believe that everyday convenience should go hand in hand with environmental responsibility.

We offer a range of eco-friendly tableware made from naturally fallen Areca palm leaves. Our products combine the beauty of nature with the functionality required for everyday dining, events, catering and food service applications.

By transforming naturally available agricultural material into useful disposable tableware, we aim to provide an environmentally conscious alternative to conventional disposable products.

Our product range is designed for customers and businesses looking to make more sustainable choices without compromising on presentation, convenience or functionality.

OUR VISION

To encourage a more sustainable lifestyle by making natural and eco-conscious tableware accessible for everyday use.

OUR MISSION

To deliver reliable Areca leaf tableware solutions while promoting responsible consumption and reducing dependence on conventional disposable materials.

From Nature.
For a Better Tomorrow.
